**FROM/PHONE:** Manny Diez, Director of Public Works and Capital Projects, 954-797-1245

**PREPARED BY:** Manny Diez, Director of Public Works and Capital Projects, 954-797-1245

**SUBJECT:** Discussion Item

**AFFECTED DISTRICT:** 2

**ITEM REQUEST:** Schedule for Council Meeting

**TITLE OF AGENDA ITEM:** DEBRIS AND TREES ON THE S.W. 67 AVENUE  
RIGHT-OF-WAY

**REPORT IN BRIEF:** The undeveloped right-of-way West of SW 67 Avenue has debris left over from previous storms. In addition, the right-of-way contains numerous tall Australian Pines. Several residents have called the Public Works Department in the past expressing concerns about the debris and the condition of the pines. The Town Forester has identified approximately 35 pines that are dead, diseased, or dying. The Town policy has been to remove such trees. Public Works requested quotes from a contractor specialized in tree removal and clearing of property. The quotes indicate that the cost to selectively remove the debris and the deficient trees is only 14% less than the cost to clear the entire property, due to access issues. Finally, the SW 67 Ave right-of-way is scheduled to be developed in the next several years and would need to be completely cleared at that time anyway.
